Rick Carruth : Magic Tips and Tricks before purchasing it in order to gage whether or not it would be worth my time, and all praised Magic Tips and Tricks:

1 of 1 people found the following review helpful. A wonderful collection of magical effects and adviceBy GregThis is a small well written book that covers tricks primarily aimed at beginning to intermediate level magicians. Also included is superb advice on performing, tips to increase your skill, and most importantly, what is needed to truly entertain a group (it's more than just learning a few tricks). The book is loaded with useful information without being

overwhelming. A nice addition to anyone's magical library. 1 of 1 people found the following review helpful. Well worth it

This is a special, original magic book. It is full of magic tricks for you to do. Even so, it is full of tips on how to be a magician including the bits and pieces that go into a successful performance. Focused on novices, a professional will find it worthy of attention and gain from reading it. Well written, too, in a simple to understand style. Read, study and learn from it. Well worth it.
