Yes, these are written specifically for that year's card, but the hints are really worth it.Can anyone answer this question on the 2017 card:In the 2017, the second hand FF

DDDD 2017 DDDD it shows blue flower, green dragon red 2017 and blue dragon (I realize this is just for separation purposes.) That makes it appear that 3 suits are needed, but the fine print next to the hand states (2 or 3 Suits). The hand below is in 3 colors and states 3 suits. What is your take? 3 of 3 people found the following review helpful. Perfect book for beginner and experienced players By Sandie I bought 4 copies of this book, one for me, and three more for my mahj group. The best part of the book is that it uses the 2013 card for the hands. I have been playing Mah Jongg for 4 years and I still find I have lots to learn so this book was a welcome aid. The book is broken down into simple steps. The table of contents is very thorough and shows you where to go to easily find what you are looking for. This is the first book I have come across that offers the specifics on which hands to go for and also addresses winning strategies that are easy to understand. It's short and user-friendly. I feel certain the more experienced players will find value by testing their knowledge with the quizzes and the chapter on switching hands. If you're looking for a guide to help you become a better Mah Jongg player, then I wholeheartedly recommend this book. 3 of 3 people found the following review helpful. Fabulous Book By Ann This is a great book for new people and advanced alike. Claire has done an excellent job of explaining how to make a good hand out of the tiles you are dealt. Especially helpful is the chapter on hand switches. She has given my two grandson's (ages 9 and 11) a lesson and the oldest one was one tile away from making the hardest hand on the 2013 card (he has made this hand twice on the old card - even before I did). Her training has helped me show them the intricacies of the game so they are becoming great players at a young age. With this book I am better able to help them with the fine points of the game. It is a must for everyone. Looking forward to the new book in 2014. Mary Malm

Mah Jongg 2013, How to Play and Win is the ideal book for beginners, with its step by step instruction on how to play along as well as tips on setting up hands and strategy. This book is also a bonus for Mah Jongg players who want to sharpen their game and win more often.
