**Tina Daniell : Maquesta Kar-Thon: The Warriors, Volume II** before purchasing it in order to gage whether or not it would be worth my time, and all praised Maquesta Kar-Thon: The Warriors, Volume II:

0 of 0 people found the following review helpful. Five Stars By Customer Great characters. 1 of 1 people found the

following review helpful. Too much like a role playing gameBy sakar\_echaniObviously being based on TSR's role playing game setting, you need to draw on the standard fantasy role playing elements: magic, fantastic creatures, diamond-in-the-rough heroines, dastardly villains, etc. All of which the author draws upon frequently. Unfortunately that's all she utilizes. Concepts such as character development, plot, pacing, and good storytelling are neglected. The book is essentially a series of combat scenes clearly based on sitting around the gaming table that are thinly connected by a weak narrative. There are much better books within the Dragonlance franchise0 of 1 people found the following review helpful. Look forward to reading this bookBy DtoddGlad I was able to find this book. I have read volume 1 and have been looking for the last 2 in the series. Looking forward to reading this.

At eighteen, Maquesta Kar-Thon has just volunteered to captain the Perechon for a quest with a high stake -- her father's life. The minotaur lord Attat has given her father a slow-acting poison, and is withholding the antidote until Maq captures the deadly sea monster Morkoth for his private zoo. To accompany her on this voyage, Attat sends along the renegade minotaur Bas Ohn-Koraf and a shadowperson warrior, Ilyatha. As the Perechon races to complete its quest, it is beset by pirates, attacked by Blood Sea imps, and tangles with kuo-toa. Maq must not only fight these enemies but prove herself to the Perechon crew. Through it all, the image of her dying father bears down on her. The Warriors series details the exploits of the heroes and villains of the War of the Lance.
