David Hodgson : Mario Kart (Wii): Prima Official Game Guide (Prima Official Game Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mario Kart (Wii): Prima Official Game Guide (Prima Official Game Guides):

2 of 2 people found the following review helpful. Good reference book and guide for a great gameBy GThis is a decent enough guide for an addictively fun game. There is a lot of info in the book to help shortcut the learning process and answer many questions that arise over the course of gameplay. It informs you of the best racing lines and most of the shortcuts available in the game, although I find the maps confusing to read. The descriptions of different areas of a track aren't always in order and tips are sometimes awkwardly described.The characters and vehicles are

described fairly well, but I find the descriptions of some of the play modes and gameplay actions are too brief. I don't mind figuring things out on my own, but when I purchase a guide, I expect more detail of all aspects of the game - not just some of them. For example, Mirror Mode is not really well defined in the book and one is left guessing what it is until you actually unlock it and see for yourself. Same thing applies to 'Retro' cups - it's often referred to, but not well defined. Although there is a list of unlockable characters and vehicles in the back of the book, there should be more detail and emphasis on them since it's such an important part of the game. They're presented as more of an afterthought than an integral aspect of the game. Another thing I'd like to see is some form of an index.

2 of 2 people found the following review helpful. A must-have for the serious gamer
By Michael R. Then
This book not only helped me unlock some of the fastest karts in the game, it helped me knock several seconds off each lap. The techniques, suggestions, and shortcuts are invaluable for the serious gamer, especially those that wish to dominate online!
0 of 0 people found the following review helpful. my 9 year old son loves it
By Andre
Wish I could give a better review but I haven't read the book.. I did however give it to my 9 year old son who says it's been a big help playing the wii game it's based on and it's given him info on a few little gems/easter eggs he would normally have been unaware of..

Full-color, 100% accurate course maps showing the world's fastest Ghost times and racing lines!
All game modes exposed, including crucial tactics on drifts, drafts, mini-turbos, and when to wheelie!
Complete coverage of Grand Prix, Time Trial, Versus, Mirror, Battle, and Online Modes!
From unlocking the True Ending to tactics for scoring three-star ratings on all tracks, we show you how!
Multiple methods of unlocking all characters and vehicles: We show you the quickest ways!
