Martin Gardner : Martin Gardner's New Mathematical Diversions from "Scientific American" before purchasing it in order to gage whether or not it would be worth my time, and all praised Martin Gardner's New Mathematical Diversions from "Scientific American":

0 of 0 people found the following review helpful. The everlasting challenge!By Hiram Gmez Pardo VenezuelaThe whole materialization of this book was due the kind permission of Scientific American based on a smart and very antique idea: to recreate and diffuse all kind of ingenious problems, challenging riddles and daring enunciates from the most lucid minds around the world. From the sagacious inventive of Lewis Carroll all kinds of creative problems will put you in action and magnificent good mental shape to resolve a wide gamut of several and clever problems.Geometry, elemental physics, advanced logic will defile and bet for its eventual resolution, through a series of funny stories and suggestive anecdotes as the famous device employed by Kant to set the appropriate time once his watch disarranged.The pleasant style of Martin Gardner in his role such master ceremony constitutes a splendid opportunity to let you to invade for the most astonishing and smart questions.Go for this!

Paperback with green boards. University of Chicago Press, Publishers. Phoenix edition 1983. Printed in the USA. Total 253 pages. Contains color and black and white drawings and illustrations. Pages are clean of markings, spine is

tight and straight. Pages are lightly tanned due to age of book, but are in great shape. "Martin Gardner, the master magician of math, led millions through the labyrinth of mathematics with charm and wit in his popular Scientific American Column. In this selection from those columns, Gardner instructs as he entertains and provides readers the opportunity to experience the essence of mathematical thinking, the pleasure of intellectual stimulation and free play." An excellent book that you will not locate in just any used book store and especially at our price! Hurry, best get this one today. *3BC3
