**BradyGames : Marvel: Ultimate Alliance 2 (BradyGames Signature Series Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised **Marvel: Ultimate Alliance 2 (BradyGames Signature Series Guide)**:

7 of 8 people found the following review helpful. Very useful, though with some nagging flaws. By D. MokI am very picky when it comes to strategy guides for video games. And for me, about 60 per cent of strategy guides I've bought in the last eight years have fallen short. This one is not one of them. I find it all the more impressive that this book actually drastically increased my enjoyment of a game which had been putting me into quite a foul mood. This book isn't perfect. There are factual mistakes (such as which boss character gives which boost), and there are still too many pictures for my taste -- it's not particularly easy getting at some of the hard information. Some more master lists would have been nice, such as complete lists of boosts and icons and their locations gathered in one place, or some kind of layout tool to help hidden optional objectives stand out. And some of the tactical advice is flat-out wrong -- try to use

Ms. Marvel in melee combat at Legendary difficulty and she'll drop like a stone. However, this is one of those games filled with so many little factual details that mistakes are bound to happen. What makes this book worthwhile are the fight strategies, which are by and large quite accurate and help deal with the insanely powerful boss and mid-boss fights in the game. Without the book, I wouldn't have found all the Asgardian Runes and M'Krann Fragments (which unlock Thor and Jean Grey, two characters that would make your party much less wimpy) in the game without many tiresome replays, thanks to the game's idiotic replay system. The book's analysis of characters' skills and their usefulness are dead-on, and it gives you level maps that are very close replicas of the in-game map, which makes finding things a lot easier. Well worth the purchase price. 0 of 0 people found the following review helpful. Video Guide By Mr. Big Good seller and good item 1 of 1 people found the following review helpful. The Heros Reunited!! By MtM This guide, much like that for Marvel Ultimate Alliance is very comprehensive and easy to follow! They are both full of valuable information. The character pages are very detailed and give good insight into building strong characters to use on any given team. The photos of the screen environments could be slightly larger to give better idea where hidden items are. Overall, I would say this strategy guide is a good investment to help get through Ultimate Alliance 2.

BradyGames Marvel: Ultimate Alliance 2 Signature Series Strategy Guide includes the following: A complete walkthrough covering every area and every mission.
