Prima Games : Mass Effect 2 (Covers All Platforms and All DLC): Prima Official Game Guide (Prima Official Game Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mass Effect 2 (Covers All Platforms and All DLC): Prima Official Game Guide (Prima Official Game Guides):

11 of 11 people found the following review helpful. Fantastic Guide!By Tristan A. HayesIm of the type that still uses guides for most games that have them available as they are valuable tools for getting the most out of a game. That being said, I have seen guides take measures to ensure that they are packed with easy to access information for just quick run throughs, thorough playthroughs, and attempts to minimize the storyline spoilers while still providing

enough detail with the story to fill one in on what happened in case they did not grasp the plot. This game guide aided me in my 60 hours with the game and was utterly helpful on many fronts. Following the guide I was able to get through about 78% of the trophies/achievements in just one playthrough (and potentially more if I had been skilled enough). The guide integrated most of the trophies and achievements into the walkthrough of the game by having callouts for when and how one could be achieved, or just offering suggestions on how to get them at key points (vital for one of the DLC missions, and for the ending as well!). The guide's maps were beneficial, clear, and easy to understand. The planetary compendium was excellent too as the game has tons of planets that can all be mined for minerals and ensured that I only aim for the ones in which I can get the most minerals from. In terms of storyline spoilers, the guide speaks of the story, so a warning before buying is to make sure one does not exactly read too far ahead in a section (and as a suggestion follow along as you play it, pause too so one can see if a paragon or renegade interrupt occurs so they can anticipate what may happen). Otherwise, it was an excellent guide that I used throughout the entire playthrough of the game as I followed it from cover to cover! 0 of 0 people found the following review helpful. Five Stars By William Holmes very good maps and helps when I need to find something. 2 of 2 people found the following review helpful. ME2 Game Guide By RJ the Great Cat Lover This is a nice, heavy game guide. I was surprised how heavy it was, I thought it would be really small. It has nice write-ups of all the weapons and skills. I did not need the walkthrough since I discovered almost every side-quest and trophy on my first play through. I thought I'd pick up the guide since I LOVE ME2. I plan on playing it again to get the Platinum Trophy - I am so close to getting it! Anyway, this is a really nice addition to have.

Compatible with every platform: PLAYSTATION 3, XBOX 360 and PC! Covers the entire base game and all available Mass Effect 2 DLC! Full walkthroughs for every mission and special assignment. Exclusive maps created especially for this guide. Fully labeled to make sure you see it all! Complete planetary database to help you mine elements smarter not harder Mass Effect Evolution comic book preview!
