Fernando Bueno, Alex Musa : Mass Effect 3 Collector's Edition: Prima Official Game Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Mass Effect 3 Collector's Edition: Prima Official Game Guide:

8 of 8 people found the following review helpful. Nice book...should be accurate thoughBy Real TimeNice book; hundreds of pages and lots of great information. Prima did such a good job with the ME1 and ME2 guides I ordered this one without checking the buyer's reviews. That will be the last time I make that mistake.Sadly, the index is only fair at best, I could not find a decent table of contents and the weapon ratings (weight, capacity, etc...) are a bit off which make it difficult to use the descriptions as a reliable guide. There are a couple other items, like where they simply parrot the exact words one can read in game, but I want to keep this short.Having played through ME3 twice before ordering the guide (wanted to see if I missed anything) it turned out I hit everything mentioned in the guide, and

even matched several of the 'builds' for my NPC companions. It 'is' a nice book, but I doubt anyone that has played ME1 2 will need it. Even if you start with ME3, the forums are a better source of information, in my opinion. Though I am not completely satisfied with my purchase, I am "OK" with it; hence the three of five stars. 0 of 0 people found the following review helpful. Very worthwhile strategy guide, especially for completists. By wjones14 This guide covers the game really well. It hides spoilers by warning you, placing major spoilers upside-down, etc. It gives detailed step-by-step instructions on how to beat each mission in multiple ways, allowing you to play the game using brute force, long range sniping, stealth, or whatever combination is your fancy. The index is nicely done too, making it easy to navigate to any mission, system, weapon description, armor set, or combat type. It loses one star for me because there is no additional information or opinion on things like weapons and armor, other than what is already in the game. Also, I think a plot synopsis would have been nice - you have to read through the entire mission walk-throughs to learn the plot details, and the plot sometimes gets lost in all the details. 0 of 0 people found the following review helpful. Nice hardcover edition of the guide to Mass Effect 3. Extra artwork and background info not available in the regular guide. By Wrex A must-have for any serious fan of the Mass Effect trilogy. Great hardcover edition of the standard guide. Contains a few more pages of art and development details also mission from the standard edition. Would have liked a bit more content not available in the regular book. Also did not have the pinup of FemShep that was in the inside back cover of the regular edition. Otherwise a fantastic addition to any Mass Effect collection.

The Mass Effect 3 Collector's Edition guide includes the following exclusive content: Hardcover with a metallic finish - Protect the quality 80# interior paper Behind-the-Scenes at BioWare - Exclusive photos, art, and interviews. Learn how the team created the Mass Effect universe from Cinematics to Characters, Art, Audio, and more BONUS Digital Guide Access - With interactive multiplayer maps and video strategy See Mass Effect 3 like never before - Discover environments and parts of the game you won't see anywhere else.
