Learn how to perform 100 magic tricks from the man who worked with all-time greats Houdini, Thurston and Blackstone.

Over a hundred secrets of the trade are divulged in a rare explanation of magic tricks, which are ranked according to their level of difficulty. Different icons used in the ranking process make it easy to identify the trick skill levels, while plenty of illustrations, descriptions, and a list of U. S. and Canadian magic dealers provide everything there is to know about setting up a trick. Essential for any who would perform. -- Midwest Book
