Great for smarty pants and other types of pantsBy bmoreliketreseAs a 6th grade math teacher I use the tips and tricks in this book for fun Friday activities. My students find these interesting and fun. Both my higher level learners and my struggling learners both enjoy the activities in this book.0 of 0 people found the following review helpful. Three StarsBy nscameraWay too easy for my second grader, but fun.0 of 0 people found the following review helpful. Love itBy Jessica in WisconsinThis is so much fun for our family. We homeschool and Daddy and our eight year had started it. They are enjoying it so much our six year old has joined in.

Text, illustrations, and suggested activities offer a common-sense approach to mathematic fundamentals for those who are slightly terrified of numbers.

From Scientific AmericanFundamental math concepts are conveyed through entertaining puzzles, tricks and word problems. For the numbers-averse, this book proves that numbers are only a part of math; for the math whiz, it offers plenty of challenges. Part of the learning-is-fun Brown Paper School series.About the AuthorMarilyn Burns is one of today's most highly respected mathematics educators and is the founder of Math Solutions. She received the Louise

Hay Award for Contributions to Mathematics Education, and in collaboration with Scholastic, she developed "Do the Math" TM, a program for elementary students.
