Scott Flansburg : Math Magic for Your Kids: Hundreds of Games and Exercises from the Human Calculator to Make Math Fun and Easy before purchasing it in order to gage whether or not it would be worth my time, and all praised Math Magic for Your Kids: Hundreds of Games and Exercises from the Human Calculator to Make Math Fun and Easy:

0 of 0 people found the following review helpful. Great compliment to a mathematics tool box of info building a strong base for learning math concepts. By writerslifeblog Great inspiration to include in the tool box of teaching math whether home schooling or a school teacher. I've been both. As a homeschool parent I partnered MM with workbooks by McGraw Hill and the School House Rock videos and computer programs offered at the time in the mid 90's. I also used the concepts to teach my Prekindergarten students. Parents were amazed by how their children were doing advanced addition and subtraction along with multiplication once I planted basic concept seeds using MM as one of the tools in my arsenal of information for them. I especially appreciate the price, too. Definitely worth the purchase. 0 of 0 people found the following review helpful. Gift By Customer Ordered as a gift. He loved it, thanks! 0 of 0 people found the following review helpful. I love this book. By Dee I love this book, it offers some great tips to assist one in learning maths in a fun way. I shared the information with my grandson's teacher and she just loves the book. I am hoping that they will be using the skills to teach his class maths during the school year. Worth the money spent.

In Math Magic, his New York Times bestseller, Scott Flansburg demonstrated his universal ability to make math fun and easy for adults. Now in Math Magic for Your Kids, the Human Calculator does the same for elementary school children. Measuring flour for a birthday cake, setting the dinner table, counting change -- learning these simple skills daunts millions of children. And helping them along can be frustrating for parents. In Math Magic for Your Kids, Scott Flansburg comes to the rescue. With entertaining games and tricks, this proven method helps kids develop a positive attitude about numbers, the necessary foundation on which they will build math skills for the rest of their education. Children will discover hours of independent amusement, while parents will find activities they can do with their children to supplement their schoolwork and to help them get better grades, including: Innovative counting exercises that teach addition and subtraction Writing activities that reinforce math concepts Shortcut methods that provide "magic tricks" for learning math skills Riddles and puzzles that activate logic and math basics Games and drills that introduce and perfect multiplication and division
