**Rajesh Kumar Thakur : Maths Made Easy** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Maths Made Easy:

If maths makes you sweat, and calculations give you a headache, fear not. Maths Made Easy will break down complex mathematical problems in such a way that adding  $1224353 + 4356676$  will seem as easy as  $1 + 2$ . Using the finger

technique where the most complex equations can be solved using your fingers and other simple calculation methods, this book will solve all your numerical dilemmas, so that you will no longer need a calculator, or even pen and paper. With chapters on addition, subtraction, multiplication, division, square and square root, cube and cube root, fractions, trigonometry and conversion, this is a perfect guide for students as well as all those who suffer from maths phobia.

About the Author Rajesh Kumar Thakur currently works as a Director at the National Vedic Maths Academy, a branch of the All India Ramanujan Maths Club, Gujarat. He is a postgraduate in three diverse subjects Mathematics, Operational Research and Education and has done his Doctorate in Education on Vedic mathematics. He is also the author of The Essentials of Vedic Mathematics.
