Different from Mac versionBy A CustomerThe book is composed of hard to see screenshots with commentary. The screenshots and descriptions are quite different form the Mac OS X version. It was somewhat helpfull but there are sites online that do a better job.4 of 8 people found the following review helpful. To the MAXBy Blank BlankWhen you play Max Payne one of the first things you might notice is the way the blood splatters. It is very cool and this is where the Max Payne(TM) Official Strategy Guide comes into play. It shows you how to get the most from your weapons, whats the best way to take out the bad guys(SPLATTER), and most important when to do that MATRIX-type effect that you can only do on MAX PAYNE.Trust me with this guide you will get the max out of your MAX PAYNE. You just can't go wrong.

Tips on maximizing the benefits of "bullet time."About the Author Gathering of Developers, a Texas-based computer and video game publishing company, was founded in January 1998 in response to the industry's need for a publisher who understands and respects independent game developers. Fueled by past publishing experiences and frustrations, several experienced, hit-making development companies bound together to form The Gathering, a relationship-based publisher that treats developers as professional entertainment artists. Now a subsidiary of Take Two Interactive, The Gathering remains committed to its principles of cultivating strong developer relations.
