Four StarsBy postieSome mazes may be impossible to solve. If you want TOUGH mazes, this is it:)

Mazes are very popular when it comes to children's games and puzzles books and in this mazes for kids book you will find no fewer that 50 hard and extreme mazes. To prevent "peeking" and to reflect the challenge that you should expect from puzzles at this level, there are no accompanying solutions.Mazes are a favorite when it comes to kids

activity books and these brain puzzles are a perfect and fun tool when it comes to child development. That said, the mazes included here are difficult and so are best suited to older children, and indeed to adults of all ages. Please note that the maze puzzles in this book are printed in black and white.
