Shaun Moores : Media/Theory: Thinking about Media and Communications (Comedia) before purchasing it in order to gage whether or not it would be worth my time, and all praised Media/Theory: Thinking about Media and Communications (Comedia):

From an established author with a growing international profile in media studies, *Media/Theory* is an accessible yet challenging guide to ways of thinking about media and communications in modern life. Shaun Moores draws on ideas from a range of disciplines in the humanities and social sciences, and expertly connects the analysis of media and communications with key themes in contemporary social theory. Examining core issues of time and space, Moores also examines matters of interactions, signification and identity, and argues that media studies is bound up in the wider processes of the modern world and not just about studying the media. This book makes a distinctive contribution towards rethinking the shape and direction of media studies today, and for students at advanced undergraduate or postgraduate level.
