Serhii Kucher : Mega Sudoku 16 x 16 - 150 Hard to Extreme Puzzles (Volume 3) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mega Sudoku 16 x 16 - 150 Hard to Extreme Puzzles (Volume 3):

Mega Sudoku 16 x 16 - 150 Hard to Extreme Puzzles. The puzzle a 16 x 16 grid made up of 4 x 4 subgrids (called regions). Some cells already contain numbers, known as givens. The goal is to fill in the empty cells, one number in each, so that each column, row, and region contains the numbers 1 through 16 exactly once. Each number in the solution therefore occurs only once in each of three directions, hence the single numbers implied by the puzzles name.
