Nick Snels : Mega Sudoku 16x16 Large Print - Extreme - Volume 60 - 276 Logic Puzzles before purchasing it in order to gage whether or not it would be worth my time, and all praised Mega Sudoku 16x16 Large Print - Extreme - Volume 60 - 276 Logic Puzzles:

1 of 1 people found the following review helpful. Just started but am very pleased so far!By KenI took a chance buying a book with no reviews and am happy with my purchase so far. I am posting this review after doing only one puzzle (the first one) so that if you are considering buying, you have at least one review to help.I would call the first puzzle hard to very hard and was very pleased with how it slowly revealed itself and then about 70 % in I zipped through the balance. I am a casual Sudoku fan and do them to relax and this book will keep me busy for a year or more.276 puzzles is a lot and I wasn't expecting a book so thick (almost an inch). Only 216 of the puzzles are 16 x 16

(still a lot) and the balance are an interesting selection of other puzzles to try and I'm looking forward to them. Everything else about the book was spot on! High quality paper and cover. Proper number and grid sizes and white space for notes. Pleasing design, etc. One final thought. On the back page is a note from the author saying if you liked his book, please post a positive review on . Since I am the first to post a review, then that tells me he didn't ask his family and friends to get the ball rolling which I find highly ethical and pleasing. He's proud of his work and let it stand on it's own merits regardless of how long it took. WELL HERE'S YOUR REVIEW NICK...GOOD SHOW!
