"Mensa Boost Your IQ" consists of a series of IQ tests, starting at a normal level and progressing through to an

advanced stage. IQ tables are given for each test and the higher the level, the higher the IQ. The tests are diagrammatic or numeral, and thus culture free. No special skills are required to tackle these brain-teasers beyond common-sense, logic, and a basic numeracy, combined with a tenacious will not to give up! This book will please those who wish to test their IQ, as well as those already hooked on these intriguing and infuriating mind games.

About the Author Carolyn Skitt has worked at Mensa for many years. She is also an experienced puzzle setter and has contributed to many puzzle publications over the last 20 years. Harold Gale was the Executive Director of Mensa before writing and contributing to many puzzle books around the world.
