**Michael Rios : Mensa Sudoku** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mensa Sudoku:

2 of 2 people found the following review helpful. Great level 3 sudoku bookBy always looking for a good readI loved this sudoku book so much that this is my second one. Why it's called 'mensa', I have no idea as each puzzle seems to be the same 3 star level (1 easiest to 5 hardest). Level 3 is fine with me as I can do it without thinking but it keeps me in a nice 'zone' after work.1 of 1 people found the following review helpful. This was the best Mensa could do?By The Dog LadyThis was a good book for me. I don't think you need to be a Mensa member to enjoy it. My "Grandma's

Sudoku" was a lot harder. Ironically named, don't you think? 0 of 0 people found the following review helpful.  
Great! By Donna F. Ballew Perfect! Arrived when due, no negatives, love this game. Great service! Will order again.  
Can't think of anything else to say

Sudoku for the super-smart! Mensa members are known for their finely-honed logic skills and that's just what it takes to become an expert at sudoku. So it's no surprise that this organization for the highly intelligent has put together a huge collection of these sizzling-hot puzzles a whopping 534 games to sate the obsessed solvers craving. They start out relatively easy for the newcomer, and get harder (and more fun!) as you go along.
