clairvoyance is a good book to get started on learning magic tricks that can be easily performed anywhere, anytime and with the right tool. The book gives you insight on about some basic mentalism as well as concrete, real technique used in the old school mentalism magic. This book personally give me some tricks that can be performed so easily even just after 2 days of having this book. I honestly were dissappointed when I recieve the product due to that the book and what it covers does not meet my expectation. I was really expecting for some scientific mentalism method or some explanation of Psychology or NLP behind the mentalism techniques. The book physical shape itself it's okay, but I was hoping that the organization of the contents inside could be easier for the readers and could be neater. 2 of 2 people found the following review helpful. Not enough actual mentalism, for me, at least. By Donald M. Toth (Rom. 14:12) This book gives you exactly what it says it was going to give you. Not more and no less - well, maybe a little less. About a third of the book was childish or at least juvenile in language and content. Then the other or third third was excellent to outstanding. I suppose if it was sold as a young adult selection, I wouldn't have a problem. Of course this comes from a full grown male who reads cat-warrior books by Erin Hunter. 0 of 0 people found the following review helpful. Mental magic By Kindle Customer This short but very good ebook on mental magic is well worth the money to buy. The effects are easy to learn and fun to preform for friends and family.

From the Inside Flap We live in an enlightened, technological world today. The knowledge of man seems to be without limit. If we are looking for an answer to a question, it is at our fingertips on the Internet in a matter of seconds. In this way we are exposed to a true flood of information. It seems there are no longer any secrets in the world. But is that what we want? What's left to dream of? People long for things that allow them to escape daily routine for a while. That might be the reason why people are showing an interest in sorcery and magic again. Mental magic in particular has gained in popularity during the past few years. The most famous mentalist of the world, Uri Geller, at last enjoyed great success with his TV show "Phenomenon". Apparently supernatural phenomenon is simulated in mental magic. Keep the audience guessing about whether there is more behind the effects shown than simple magic tricks. This book will teach you some of the best tricks and techniques mentalists use to perform what appear to be miracles. With these tools at hand, it is up to you to put a spell on your audience. You can move others to marvel and dream. Good luck in doing so! Max Mindbender
