Mark Leigh : Weird Shit: True Stories to Shock, Stun, Astound and Amaze before purchasing it in order to gage whether or not it would be worth my time, and all praised Weird Shit: True Stories to Shock, Stun, Astound and Amaze:

0 of 0 people found the following review helpful. Great giftBy HeidiI always buy my brother a weird/crazy book for his birthday... this one was perfect!0 of 0 people found the following review helpful. If weird can be entertaining, this

is it...I saw it, I don't want to be alone it this.....lolBy Montzalee WittmannWeird S*** by Mark Leigh is a strange and wonderful book with unusual and amazing facts you would never believe were true. It has chapters of weirdness from animals, military, sports, art, leaders, sex, food, anatomy, entertainers, the rich, crime, and the law. Those are just a few of the many oddities here. Some are funny, others gross, a few are unbelievable, and others are sad because they are true. A very entertaining book that would be great by yourself, at a party, a bathroom book for that bathroom person in everyone's house, for a gift, or for the living room side table for a conversation piece. I learned a lot out of it, some I really didn't want to know, but it is in there now! I received this book from NetGalley for a honest review and it in no way effects my rating or the content of this review.1 of 1 people found the following review helpful. A Bit Uneven, But FunBy Pop BopIt seems to me that there are two basic tests for an odd-and-unusual facts bathroom book. Are the facts odd, unusual and interesting? Does the author stay out of his own way?On that second question I'm happy to report that apart from a perfectly amiable introduction, the author does in fact stay out of his own way. We don't have to hear about how he found each fact, or where he was at the time, or what he feels now about his former girlfriend. And there isn't any boffo rah-rah selling of the material between bits.The book is broken up into a bunch of chapters by subject matter, and the facts appear in individual paragraphs. The book is organized like, and works like, a standard, if vaguely demented, anthology, (like, say, "Bartlett's Familiar Quotations"), and is eminently skimmable. As to content, we run the gamut from animals, diseases, foods, crimes, physical oddities, sexual peccadilloes, death, famous people, and artworks, to name a few of the categories. Each fact gets a bit of context, and a bit of engaging commentary, but it's not belabored or stupid/cutesy.That said, some bits are more interesting than others, and we lean more to the freakish side, (anatomy, weird food, ways to die, sexual practices), than the surprising or informative side. Since the point is to just have a collection of weird stuff, well, mission accomplished.(Please note that I received a free advance ecopy of this book in exchange for a candid review. Apart from that I have no connection at all to either the author or the publisher of this book.)

From animal tales to strange sex facts to discussions on art, this book of strange facts will prove difficult to put down Did you know? Salvador Dali sometimes wore a perfume of fish glue and cow dung to attract his then girlfriend, Gala. Have you heard, seen, or read about something so bizarre and incredible that it leaves you bamboozled for the rest of the day? No? Then you haven't read Weird Sh!t. This eclectic and eccentric mix of news stories, events, concepts, and conceits reveals a world removed from reality as you know it. Prepare to depart from this seemingly conventional life and arrive at a destination full of downright weird and wonderful shit.

an "entertaining read" --Teena in Toronto, 2/20/2016
