Jaime O'Neill : What Do You Know? : The Ultimate Test Of Common (and Not So Common) Knowledge

before purchasing it in order to gauge whether or not it would be worth my time, and all praised What Do You Know? : The Ultimate Test Of Common (and Not So Common) Knowledge:

15 of 16 people found the following review helpful. Good buy, will keep you going back By Matthew J. Rowland I recently bought this for a friend for graduation and then bought it for myself as well. It is chalk-full of information that you find on quiz shows and in board games. Think you're a useless trivia buff? Take a look at this book; it ranges from the complex to the simple and back again. It is good for the entire family, if your family consists of those aged at least 16 years old. Kids won't like this because the information is not aimed at them; it is geared towards adults. It is a nice book and will keep you entertained for hours. 0 of 0 people found the following review helpful. Not as good as the original By Wuanita M. Delaney When our boys were young, we used the original edition to play games during the long hours of driving on family vacations. This one is organized differently and not nearly as much fun. 67 of 76 people found the following review helpful. So, You Think You're So Smart? By A Customer Maybe you ALWAYS beat your family and friends at Trivial Pursuit. Maybe you've been dying to go on Jeopardy! and win some easy money. Maybe you got a perfect score on your SATs and you like nothing better than sitting around watching The Learning Channel. No matter how much you THINK you know, this book will reveal areas of knowledge in which you are lacking. I have

always loved tests and trivia, and I was depressed when an earlier edition of this book went out of print before I could buy it. So scrounge together your nine bucks and order *What Do You Know?* before it's too late! It would also make the PERFECT inexpensive gift for that know-it-all in your family or office.

What Do You Know? provides the reader with a variety of tests that are stimulating and fun. It will appeal to fans of "Trivial Pursuit," but is actually cultural literacy in action, paving the way for greater cultural awareness of its readers.

From *Library Journal* In 1985, O'Neill, a California community college professor, tested his students and was shocked to discover how little they knew about U.S. cultural heritage and current events. His article in *Newsweek* and appearance on *60 Minutes* started shock waves of public reaction. This book contains that test, with percentages of incorrect answers, plus 44 other tests, all with answers. Tests cover real and fictional persons and places, functional knowledge, references and allusions in the media, events of the century, geography, familiar quotations, literature, and fine arts. Trivia buffs and those who want to test their fund of knowledge will enjoy this book. Its real importance, however, may well be as an additional message to educators and other concerned persons regarding the woeful condition of cultural literacy in this country.- Shirley L. Hopkinson, California State Univ. Lib., San Jose Copyright 1990 Reed Business Information, Inc. From the Inside Flap A treasury of trivia tests on every subject imaginable, covering people, places, and events on everything from art to rock and roll-even crooks and con artists, TV shows, advertising jingles. Each subject has a brief introduction on what the test is intended to show. And there's even an introduction by celebrated TV journalist, Mike Wallace.
