I give it to my 3 year old daughter when we are out to eat to keep her busy while we wait for food. She also asks for it on longer car rides. The pictures are black and white and can be colored to help spot the differences in the pictures. The side by side pictures are full pages so the differences are not too hard to find but challenge her a bit. I am very happy with this purchase. I actually purchased 2 of them and gave one to my friends 4 year old and he has really enjoyed this book to. 1 of 1 people found the following review helpful. Cute book! By GmaKiya This is a cute book. I didn't read the description of the book but just know, that this book is a small

one! I guess it would be good to take with you to keep your child busy while you are at doctor or appointment. I just mean, it is small! The story is cute and he had a lot of fun trying to read the story. The story line kept him interested in the whole book, over and over. Great Christmas stocking stuffer....it will fit...LOL!0 of 0 people found the following review helpful. Small size is difficult for little ones to useBy bobolink47I like this book but it very small and difficult for little hands to hold open and figure out the differences in the drawings at the same time. If I had realized that it was only 4" x 6", I would have ordered something else..

Do you like challenges? Then you'll certainly love this little puzzle book. Twenty-seven sets of brain teasers ask you to identify the differences between similar pictures, among them two pictures of a dog and his friend, and backyard scenes of fluttering butterflies. For added fun, you can color each picture when you've solved the puzzles.
