Excellent book to get and KEEP a toddler's interest By Dustin Tarditi We got this book for our son; originally, from the local library... we had to get it out several times, as it quickly became his favorite. Eventually, we bought it to add to our collection. The book brings the simple interactive song, "The Wheels on the Bus" to life as each verse is wonderfully illustrated with artwork that captures a child's attention and provides LOTS of visual stimulation and teaching points. Vibrant colors, interesting people and actions make the beautifully simple song something you can sit down with your child and read over and over, pointing out new things... We read the book, sing with the book, make the hand movements/gestures, go into detail about the vignettes presented in the back-story, use our imagination, object, action and color recognition, it's a great way to connect educationally and in a simple, entertaining way. This book is up there with "Green Eggs and Ham" "You Are Special" "Guess How Much I Love You" and "Go Dog Go" as a key component of any young child's library. Your decision should not be "if" I get this book for a child, but whether you get the board book, paper book, or both! 0 of 0 people found the following review helpful. so adding the book to the song is a lot of fun for her By Alex My 15-month-old daughter loves this song, so adding the book to the song is a lot of fun for her. The illustrations are very detailed. 0 of 0 people found the following review helpful. We love Raffi By vicki We love Raffia books! So fun to read and sing. Our daughters love them.

Singing and reading to your child are considered two of the most vital ways parents can stimulate the development of a child's brain during the earliest years. Raffi's Songs to Read unites the rhythm, rhyme, and repetition that helps to lay

the foundation for later speech, listening, and reading skills. here with fresh new cover designs are some of Raffi's best-known songs. With enchanting illustrations they create books that are natural bridges between music and reading.
