Anthony Rubino Jr. : Why Didn't I Think of That?: 101 Inventions that Changed the World by Hardly Trying before purchasing it in order to gage whether or not it would be worth my time, and all praised Why Didn't I Think of That?: 101 Inventions that Changed the World by Hardly Trying:

2 of 2 people found the following review helpful. Science Teacher Loved It!By Mark W. HallI teach 8th grade science and this book is a great way to demonstrate how great the inventive spirit is. With new standards centered around STEM (Science, Technology, Engineering Math), this book is simply a fun way to make the students think about things in a different way!0 of 0 people found the following review helpful. Great pick up and put down book!By Sallie LSaw this reviewed in an article and ordered it for my husband and two adult sons for Christmas--almost read it all the

way through just trying to get them wrapped--everyone enjoyed this quick stories on some very common, everyday products--great fun to read!0 of 0 people found the following review helpful. Five StarsBy COOKIE NANAMy granddaughter is a budding scientist and inventor and loved reading about all those products.

Why Didn't I Think of That? proves not all successful inventions are the greatest thing since sliced bread (not even sliced bread, which is literally just a precut loaf for lazy loafs). This humorous guide to mind-blowing inventions deconstructs just how complex these can't-live-without necessities really are, while providing some insightful(ly funny) lessons to future inventors, such as:Yo-yos: Deadly weapons do make great kids' toys.Soccer: Boredom is the stepmother of invention.Bottled water: There is no such thing as a stupid idea.Complete with useful trivia--like the fact that 100 trillion paperclips have been sold--readers will be able to impress their friends by hardly trying.

About the AuthorAnthony Rubino, Jr. (New York, NY) is a writer and cartoonist who combines humor, art, and pop culture to create nonsense of the highest quality. And as a contributor to MAD, Cracked, and National Lampoon, Rubino knows a lot about nonsense.
