**Valeri R. Helterbran : Why Rattlesnakes Rattle: ...and 250 Other Things You Should Know** before purchasing it in order to gage whether or not it would be worth my time, and all praised Why Rattlesnakes Rattle: ...and 250 Other Things You Should Know:

0 of 0 people found the following review helpful. LOts of Fun Facts That You May Not KnowBy Sharleen MartinSo why do you get the heebie-jebbies when you sit cattycorner to a bumbershoot? I could take a fortnight to tell you, but

don't be a Doubting Thomas - just read this book!

A follow-up to Helterbran's popular *Why Flamingos Are Pink: and 250 other Things You Should Know*, this entertaining volume identifies more of the surprising explanations for the facts, tales, and lore associated with day-to-day living and the world around us. Organized into seven categories, this book tells you why birds perched on power lines aren't electrocuted; the origins of such expressions as "swan song" and "willy nilly;" and the science behind such phenomena as ball lightning, blue glaciers, red tide, and thunder snow. More than a mere compendium of trivia, this book is a springboard for learners of all ages.

[A] choice reference and trivia book, not to be overlooked. (The Midwest Book , USA)About the AuthorValeri R. Helterbran writes a weekly column for the Ligonier Echo and is Professor of Education at Indiana University of Pennsylvania. She lives in Ligonier, PA.
