Joe Blatnick : Why You Seldom Win at Bridge before purchasing it in order to gage whether or not it would be worth my time, and all praised Why You Seldom Win at Bridge:

3 of 3 people found the following review helpful. buy the book, not the ebookBy Patricia C.This is a handy and helpful book in its real paper form but does not do as well as an ebook. The card symbols, heart, spade, etc..., are tiny and do not enlarge even when the text does. Because of this, the illustrations are useless and it is harder to follow the explanations without having the pictures/symbols. I was very disappointed when I realized this problem.1 of 1 people

found the following review helpful. One StarBy John H. DakinAn amateurish book, badly written and of little value. I threw it away.

Many bridge books have been written over the years. The one judged to be the best of all time is 'Why You Lose at Bridge' by S.J. Simon. Even Goren, himself, in his forward to the book says that, not only weaker players can benefit from it but so can the more experienced. Although bridge players don't always lose, they seldom win as often as they would like or even as often as they should. "Why You Seldom Win at Bridge" aims to put you in the winner's circle more often. Observe a good player in action for any length of time and you might not see many spectacular plays, but you'll also see very few mistakes. The better players make far fewer than we mortals. Consider tennis for a moment. The winner will almost always be the player who makes the fewest unforced errors. The same applies to bridge. Make fewer mistakes and win more often. It's the players who make the same blunders, time and time again who seldom win, and then bemoan their bad luck or blame the bridge gods. Covering those little things in the bidding, declarer play and defence that too many players mess up, is the thrust of this book. The game of bridge has changed a great deal in recent years. This book will help you with those little things that you aren't doing well or aren't doing at all. It's a win/win situation.
