5 of 5 people found the following review helpful. the format is awful By Jiri N This review is only about the format of the book, not the the content. The book description says "Sleek design with a covered spiral binding makes it easy to solve puzzles". If you really expect spiral binding you find in school notebooks, then you will be disappointed. I've never seen binding done this bad way in the past, the binding does not allow you to keep the book flat on the table nor flip pages 360 degrees. I really don't get why no publishers create nice binding and sell sudoku pages you can add or

remove. How hard is that? 0 of 0 people found the following review helpful. Another Will Shortz Sudoku Winner By Vadalía Whether you are a Sudoku beginner, fan, aficionado, or hard-core addict, you cannot find better sudoku puzzles than those edited by NYTimes crossword guru, Will Shortz. 3 of 3 people found the following review helpful. Little Black Book of Sudoku By Codger I got this book as a present for my wife who just loves Sudoku. Well, she really likes this book, particularly the paper the puzzles are on. She's used to the "el cheapo" books that use paper similar to that used for newsprint. She said, since she does erase every now then, that the Little Black Book's pages withstand erasures much better than the "el cheapos." She likes the spiral binding as well and hasn't complained about any problems with it. After reading some reviews from other folks who had complaints about the binding, I almost didn't get this book. I'm glad I did.... I now have a happy wife, at least until the end of this book.

It's smart. It's stylish. It's fun! And with its unique design, Will Shortz Presents The Little Black Book of Sudoku is bound to be the "must-have" collection for any puzzle fan.
