**From MP.S : Will Shortz Presents Wicked Sudoku: 200 Hard Puzzles** before purchasing it in order to gage whether or not it would be worth my time, and all praised Will Shortz Presents Wicked Sudoku: 200 Hard Puzzles:

1 of 1 people found the following review helpful. More Difficult Puzzles than Most of Shortz' Books By Thomas Baldwin I love the Will Shortz books. They are printed on nice paper and come in a convenient size. I also appreciate the different levels that one can get in his Sudoku books. Despite the claim of one reviewer that for this book, you have to guess, I didn't find that to be the case (although I was stuck on a few of the puzzles). I've gone through about 80% of this book and solved the puzzles strictly with logic -- no guesswork!. This book is harder than most of Shortz books. The 200 puzzles are split between "Beware! Very Challenging!" and "Mind-Melting" so these puzzles are one and two levels above what Shortz considers "Demanding". I've purchased this book twice and will probably buy it

again. Maybe someday I'll successfully complete all the puzzles. 0 of 0 people found the following review helpful. Buy a bunch  
By Ladylake I buy these in bunches since I am able to choose books with only the harder puzzles. These are the best!

By Joe Boucher Beware this book says all 200 are logical. Don't waste your time as I can tell you the only way to solve them is to guess. Before you buy the book take a piece of paper and try to do one of the following and then tell me they are logical. (195, 198, #200, ) Something should be done as this certainly constitutes false advertising.
