I usually take the dust cover off because I like the look of the raw book, and this book was no exception. Under the dustcover over this book is a beautiful mustard yellow color with little silver bees engraved in itit's adorable!I love it.0 of 0 people found the following review helpful. A Moment To Cherish!By Greggorio!In which Christopher Robin, his very best friend Pooh Bear and their other friends go through a series of adventures, in which they all learn something about themselves. Which is good. But in chapter nine all of the friends share an epiphany concerning life in general, and they all get sad. Then in Chapter ten, Christopher Robin takes Pooh Bear to an enchanted spot in the forest and the two wonderful friends talk for a bit and Christopher Robin learns a little bit about life, the universe, and everything. And they promise to stay friends forever.Which is also good.In Adult speak, this collection of adventures written for Children by the Master, AA Milne, is full of obvious double meanings. A glorious set of stories, with an emotional high at the end, is sure to leave the reader almost at breaking point. At the start I said this was "A moment to cherish", and I meant it!!!True beauty in literature.Greggorio!!!0 of 0 people found the following review helpful. Favorite book of my childhoodBy D. McCurleyFavorite book of my childhood. This edition is very high quality. The stories are a delight for both the child listener and the adult reader. There are so many humorous things in the visual writing of the stories that amuse an adult reader and keep both adult and child equally engaged in the story. Odd spellings and Important Capitalization are frequent humorous touches to keep the reader

amused. The stories do have great lessons on friendship, simple pleasures, expectations, acceptance, but they also reflect the vivid fantasy world and imagination of a child and of the father who can interpret it. Mr. Milne did a fine job of translating the real Christopher Robin's imaginary world into a collection of classic stories for children, parents, teens, non-parents and basically anyone. These stories and characters stay with you through a lifetime. When I was expecting my son, my friends gave me a Hundred Acre Wood Baby Shower, because, unknown to me, I had mentioned Pooh enough times that it was noteworthy. Also, BTW, the authentic Pooh and friends toys are on display at the NYC childrens library in Manhattan. Me and my son have been there with our own Pooh Bears for a photo.

From School Library Journal PreSchool-Grade 3- Children will be enchanted to meet A.A. Milne's unforgettable bear in this dramatization produced in England. David Benedictus has retained all the best elements of the original text to create a lively romp through the Hundred Acre Woods with Oscar-nominee Judi Dench narrating the way. She is joined by an excellent cast of British actors including Stephen Fry, Jane Horrocks, and Michael Williams. Using a variety of regional accents and vocal qualities, they bring Pooh, Christopher Robin, and all their friends to life. John Gould's music provides a perfect backdrop to Pooh's poetic creations and works as a natural chapter break. Good sound effects allow listeners to imagine themselves treading forest paths with the likes of Piglet and Eeyore. The cassettes are well marked, and the cover art features nicely colored versions of Ernest H. Shephard's original illustrations. The only drawback to the packaging is the clear plastic container which is likely to need replacing. This recording will be useful for introducing primary grade listeners to Pooh, but will also appeal to older children and adults. Barbara S. Wysocki, Cora J. Belden Library, Rocky Hill, CT Copyright 1999 Reed Business Information, Inc. "This program exemplifies the potential quality audio has for complementing text. Soothing music introduces and links the stories and verses. Subtle sounds of nature immerse the listener in Pooh's world and provide a backdrop for Peter Dennis' enchanting performance . . . All ages will enjoy this marvelous performance of Milne's words." -- AudioFile "If you want a family break from TV and movies, get comfy, close your eyes, and let this master storyteller stir the imagination . . . [Dennis's] intelligent and whimsical readings, meant for adults and children alike, are captivating." -- Los Angeles Times "Congratulations on your outstanding contribution to children and their families!" -- Diana Huss Green, editor-in-chief, Parents' Choice Foundation "Nobody brings A.A. Milne's timeless Winnie-the-Pooh tales alive like actor/orator Peter Dennis." -- Midwest Book From the Inside Flap Pooh straps on his backpack and goes out searching for honey with his pal Piglet in this adorable new plush toy and board book format.
