Winning and Losing in Penny Auctions presents a realistic look at these popular web sites where bidders can get great bargains. Or so you're told. But what's the real scoop? This book provides detailed analysis using real example auctions from several different auction sites including DealDash, Quibids, Bid Cactus, Beezid and more. You will learn the penny auction business from the viewpoint of the owner, the winner, and the losers. By understanding how these auctions really work, you can increase your success at these games.
