**Lloyd T. Commins : Winning at Craps** before purchasing it in order to gage whether or not it would be worth my time, and all praised Winning at Craps:

0 of 0 people found the following review helpful. Best book on craps out thereBy Johnny Angel!This little book written back in 1964 will tell you everything you need to know about playing craps such as which bets to make and which bets should be avoided. Concise and well written. The bottom line is that ALL games in a casino are weighted in favor of

the casino (negative expectancy). That is how they make money and stay in business. However, some games and some bets are less unfavorable to the player than others. This book will show you how to play smart at the craps table.0 of 0 people found the following review helpful. Good For BeginnersBy ardbobThe information in good for beginners but only has strategy for pass with odds and two come bets. but not if you play place bets.1 of 2 people found the following review helpful. FabulousBy Julie K. RozaIf your going to play dice, then you have to read this book! It doesn't guarantee you to win, but it will certainly help you to place the odds in your favor!

A manual for crapsshooters, whether professional or amateur
