Chapter in back is awesome.0 of 0 people found the following review helpful. I Love itBy Gary PilgrimI Love it3 of 3 people found the following review helpful. Winning at the races: Computer discoveries in Thoroughbred..By Gary WileyI enjoyed all of the statistical data about winners and what makes them do just that. The book is sort of dense and aimed towards the experienced handicapper. I recommend it for those people who want to design their own approach to handicapping by using statistical data.
