Buzz B Berkeley : Winning Craps Money: Win WITH the House before purchasing it in order to gage whether or not it would be worth my time, and all praised Winning Craps Money: Win WITH the House:

5 of 5 people found the following review helpful. Really?By KT1000I'm a long time craps player, and I've had my share of success, and disappointments. But betting the WRONG WAY, while it may have some merits, (such as the odds are in your favor), this book is so basic, and while everything the author says is true, \$47? Besides the fact betting on the pass line is one of the best bets in the Casino, and there is nothing more fun than betting with a "hot roller". You can bet the pass line, take full odds, and bet the come line, then when it moves to a number, take full odds. I like this better than buying the numbers and you can stay in the game longer, with less drain on the bankroll. I read

this book in less than 20 minutes. While "Winning Craps Money" shows you how to bet the WRONG way, at \$47, the only real winner here is the author. Shame on me.0 of 2 people found the following review helpful. If your serious about winning...By Richard KI heard that of all casino games, craps had the best odds. So I decided to learn how to play. I nearly gave up after the first book I bought but fortunately I found "Win the Wrong Way". This book helped me understand the fundamentals but what made it so valuable is the 20% of the game that you need to focus on in order to win. Once I learned that, the game became simple. The other reason I like this book is the practice session or what I am affectionately calling, "the flow chart". This was very helpful for me and I can't wait to hit the tables this weekend. Wish me luck at the coast.0 of 2 people found the following review helpful. It's good for beginners too!By David C.I am not a professional gambler and I have no delusions of breaking the bank. However, I didn't want to look the fool while losing my shirt at the same time if I ever wanted to venture further than the slot machines.What I like about this book is it is easy enough to grasp the main points and with minimal effort you can actually NOT look the fool at the craps table and have a great time winning enough to take your lady for a nice dinner when you're done!For the price, this book's a winner too.

Here, you'll learn how to drive the odds down to the lowest found anywhere in the casino. When you get the house odds below 1% - you have the only chance the casinos will give you to win consistently. But, you need more - you need the exclusive strategies that the Author has tested during decades of playing Craps. You need the knowledge of where, when, and how to place the bets that the house doesn't advertise. You need a full understanding of the odds - taught in a clear, simple manner. You need to recognize the sucker bets in order to avoid them. You need to develop these exciting, unique techniques taught in this book to win an amazing \$20 a minute - consistently. You need this book "Winning Craps Money". Only a very small percentage of Craps players know how all this is done. Now, you can join us!

About the Author Buzz B Berkeley is a Teacher of Gambling, a Lecturer, and Author, a former Casino Dealer, and a lifetime student of Gambling! He has held workshops in Las Vegas, Reno, and Atlantic City wherein he coached hundreds of successful Craps Players. He also loved his Handicapping Sessions where he had a steady group of bettors attending, and he led the discussions of the days Horse Races. The King of Sports was fast becoming another favorite form of gambling. He became a computer programmer because he couldn't find any computer software for winning at the races. He wrote a successful program that exposed qualified long shots and made lots of money. Although he has many other interests (and books to match), he seems most comfortable within the Gambling World! He was first introduced to his favorite pastime while serving in the Air Force during the early years of the Viet Nam war. It won't surprise you to learn that it was during that period where precious time away from the conflict was spent on diversions. Playing various card and dice games were the favorites. He eventually became proficient in Backgammon, Poker, and his true passion: Craps. After the war, his ability to succeed in those games led him to Nevada where he learned the casino business. It was during his years as a dealer that he left behind his street game and learned to win within the confines of the casino rules and any Craps player can tell you that's not easy! He took off for three years to pursue the ponies from coast to coast. The excitement of the racing was great the nights in hotels or motels weren't! So, he returned to the Pacific Northwest where he played at the local tracks, and took occasional trips to Nevada. It was about this time when Casinos in Oregon and Washington began to pop up, and once again, he was immersed in Craps! Today, he operates several Websites, Blogs, and a Membership site on his favorite subject you guessed it: Gambling!
