14 of 15 people found the following review helpful. Waste of money!By RocubaI mean I guess I shouldn't have

expected much - so the jokes on me for this one. The book talks about strategies that make no sense at all or are pretty generic and basic common sense (ie. some like to spread out their purchase over multiple tickets, some like to spend it all in one ticket - which he said provides a similar outcome! - well duh!). Don't waste your money on this - you're better off buying a few extra tickets. 1 of 1 people found the following review helpful. Three Stars By CustomerNot very useful. 1 of 1 people found the following review helpful. Five Stars By ClintEasy read

WINNING SCRATCH-OFF STRATEGIES is the most comprehensive book on how to strategically play lottery scratch-off games. You will learn the best strategies for playing scratch-offs to increase your odds of winning prizes. With some strategic game planning you can turn yourself into a skilled scratch-off prize hunter rather than someone who just randomly plays scratch-offs. The strategies outlined in this book are designed to help you win more scratch-off prizes from all prize tiers and they're intended to help you win a top prize as well. This handy guide reveals everything you need to know about playing scratch-offs, including: selecting the best scratch-off games to play, the top six scratch-off strategies, the best ways to attack game packs, how prizes are distributed within game packs, the odds of winning prizes, entering second-chance drawings, and bonus playing strategies. Plus, the strategies will work in any country that offers scratch-off games.
