HustleDon't waste your money on this book or any other books that claims to increase your chances of winning the lottery. Theses books are no better at helping you win anything than just merely guessing. You have better luck playing quick pick. I seriously mean that too. I actually had better odds playing quick pick then using the methods from this book. The real gem of this ebook is really the excel spreadsheets bonus that comes bundled with this book. I used theses spreadsheets

for months and had very little success winning anything. I would say pass on this book and any other lottery book. No book or nobody can predict lottery winnings. I must say Greg Nelson is a real person that will respond to you as quickly as he can if you have any questions, but that's as far as it goes. 1 of 1 people found the following review helpful. Gr8 book! By Laurie Doelle I ordered the Kindle version, and as expected, I didn't get all the pages.... BUT if you wait, at the end of the eBook, the author, Mr. Greg Nelson says he'll send you a pdf copy of the book and the Excel files of all the files in his book. I was a little leery, but I emailed him and low and behold, he wrote me back and sent every thing that he promised! He even included an extra Excel file for the Power ball type games. The book was VERY easy to understand, (I hate math and don't get it), but he made it very clear. Even with missing some pages of the formulas, I got an understanding. The eBook isn't very expensive, so what can you loose? A couple of dollars, and you might just win some of that back if you follow his formulas. I'm sure everyone has a computer with Excel, if not, borrow one! Thanks again Mr. Nelson! 1 of 1 people found the following review helpful. Five Stars By Customer I read it. it's about the same what I do with numbers

You'll enjoy this one-of-a-kind Interactive Cover. . . Showing two of my winning lottery tickets, side-by-side, in the background! The cover designers did a great job of an "artist rendition" without violating copyright laws in order to show these "actual" winning ticket histories. So, do this exercise next. . . Since I did say "Interactive.!" On the cover, underneath the word "meets" you'll see the numbers 07 16 29 32 and 37. When you check below that column you'll see the date MON JUL 28 2008. Now go to your favorite lottery results website and look up the Texas Lottery Cash Five game for that date. . . and you'll find I matched 07 16 29, and 37 for \$126! Now do the same for the ticket on the right, just underneath the word "sense" and you'll find 01 12 18 27 and 32, which, for the date below of MON SEP 15 2008, I matched 12, 18, 27, and 32 for \$315! . . . In both cases, only one number away from the top prize amount...over \$14,000! Finally, this is the lottery manual revealing easy-to-understand math for simplifying your life while you chase your dreams of winning the "big one." Instead of wrestling with costly "systems," doesn't "easier" make more sense? You'll enjoy learning three proven methods to at least beat "quick picks" by two-to-one, guaranteed. Create and use the same easy-to-fill-out forms that Ive used to win \$1100 once, \$600 twice, and \$40 so many times Ive lost count! Here are some email comments I've received. . . " . . . I do believe that ur book is great. Thank you so much for a book like this." " . . . Your book has been a big help with understanding the lottery." " . . . I read your book this past Sunday, then used your most basic method on a 5 ball game and hit 4 out of 5 numbers! So, thank you for helping me become \$300 richer!!" " . . . Thank you for your most informative book. I enjoyed it." " . . . Your exercises in the mathematics of randomness are fascinating. I am of the old school, and although I read a lot of books on my Kindle, I still enjoy marking and underlining! Thanks so much." Free Bonuses!. . . . Include a free emailed PDF copy of this book, since it's somewhat technical in nature, and free emailed "live" supporting forms, etc., that I mentioned above! Find out today how to improve your lottery-playing life forever by putting your efforts on auto-pilot, so the rest of your "real" life is much more enjoyable!

About the Author Greg Nelson has been writing non-fiction "how-to" type books for over twenty years. In all cases, he has researched, experienced, developed, and taught all of the efforts himself...never using what's called "private label" material, or "other people's stuff."
