By Heather SI grew up listening to adventures in odyssey and have always enjoyed it both for the wholesome storylines and interesting stories. I just bought this series for my daughters (6 and 3), they thoroughly enjoyed the plot lines and were hooked immediately. The stories are way better (and less obnoxious) than any television show that is on and we can listen to it over and over again without getting tired of them. "Getting hitched" was a comical view of what can go wrong before a wedding, the bride having appendicitis, wedding dress gets an oil spill, but the overall message of what is important in a wedding rings through, even though things can go wrong, the most important thing is the actual marriage itself. There are other stories which we also like but when Penny and Wooten get married is a great one! We will be purchasing more of this series in the future and cannot wait to hear what is in store for all of our favorite characters. 4 of 4 people found the following review helpful.
