Tim Busbee : WonderPolls: Question Everything! 2016 Day-to-Day Calendar before purchasing it in order to gage whether or not it would be worth my time, and all praised WonderPolls: Question Everything! 2016 Day-to-Day Calendar:

WonderPolls is an app that lets users create and respond to polls. The polls--simple questions or would-you-rather conundrums--range from funny to provocative to silly to sometimes downright disgusting. For example: Would you rather know someone's complete past or complete future? If forced to choose, do you take the red pill or the blue pill? Would you rather sit in a tub of spoiled milk for eight hours or drink a cup of it? The WonderPolls 2016 Calendar features an entertaining poll on the front of each page and how the app's users answered on the back, resulting in a fun calendar the entire family or office will enjoy. So, would you rather buy the WonderPolls calendar or spend the entire year being hopelessly lame?
