**James Brisson : Wonders of the World Dot-to-Dot** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wonders of the World Dot-to-Dot:

1 of 1 people found the following review helpful. I loved them then By Dorothy H. Woodruff Dot-To-Dot takes me back many decades to when I was a kid. I loved them then, so I thought they would be a way to do something when I was doing nothing. To put it another way, it is another form of doodling, when you start you have no idea of what you will come up with, and you don't even have to think, just count. DHW0 of 0 people found the following review helpful. Wonders of the World Dot-to-Dot By Melonie B. Hill I didn't dislike the book, I just prefer a more advanced level. 0 of 0 people found the following review helpful. Four Stars By Kindle EMC shopper good and relaxing

Discover the Best Humankind Has to Offer . . . One Dot at a Time If you think it's as easy as connecting the dots, think again! These 110 dot-to-dot puzzles require concentration and a steady hand as you recreate the masterpieces of mankind. With more than 30,000 dots to connect, including clues to help and faux dots to further confound, this book

provides hours of captivating fun for anyone looking to take their dot-to-dot game to the next extreme level. Colored interiors really make your puzzles pop, and the color answer guide in the back brings your work to life. From landmarks, archeological feats, and skyscrapers, to inventions, works of art, and vehicles, these puzzles cover the full scope of human accomplishment. Puzzles range from easy to very challenging, and the solutions appear in the back of the book along with full-color photos of the scene.

**About the Author** Jim Brisson is an artist and graphic designer living in Vermont who's happy with the knowledge that there are a few areas in our life where we are guaranteed to be able to connect the dots and come away a little less puzzled.
