Packed with 100 wonderful wordwheel puzzles, this book of wordwheels also contains two targets for each puzzle: good and excellent. Can you find the number of words required to hit each target? Each wordwheel also contains a nine letter word using every letter of the wordwheel, and there is a list of solution words that can be made for each and every puzzle at the back of the book. The book of 100 wordwheel puzzles also contains an introductory section with the rules and how to solve wordwheels. The 100 puzzles are laid-out two-per-page with an attractive design. The book is printed on good quality 9 inch by 6 inch paper, and there is space set aside for you to list the words you find for each puzzle alongside it. That means you can easily come back to a puzzle whenever you like and try to find more words and, of course, that sometimes elusive nine letter word!
