From Mike Evans : Woodstock: Three Days that Rocked the World before purchasing it in order to gauge whether or not it would be worth my time, and all praised Woodstock: Three Days that Rocked the World:

0 of 0 people found the following review helpful. At the time this occurred. I was otherwise occupied ...By Helena Montana At the time this occurred. I was otherwise occupied so I missed this concert. This is a very interesting account of what happened. 0 of 0 people found the following review helpful. This is an awesome book If you loved the 60's and 70' this ...By janice polito This is an awesome book If you loved the 60's and 70' this is a must have, and it would make an awesome gift. 1 of 1 people found the following review helpful. Wonderful History By Agron78 This is an awesome book, which outlines the history of the 1960s and shows Woodstock in chronological order. The pictures are awesome. There are comments from members of each of the performers, so you get a feeling of what they were thinking and doing. There are also quotes from the people attending, so you get an overall feeling of what the times and this event was like. Very cool, especially if you remember when this happened and want to know more about it.

It defined a generation, exemplified an era: Woodstock was unlike anything that has ever happened before or since. Relive the moment and get back to the garden with this day-by-day, act-by-act account of everything that went down

on Yasgur's farm. With interviews and quotes from those who were there and a wealth of photographs and graphic memorabilia, Woodstock is the ultimate celebration of a landmark in modern cultural history.

From Publishers Weekly Having been talked about, written about, filmed, photographed and remembered in the hearts and minds of millions worldwide, Woodstock remains the seminal musical and cultural event of the last century. In this coffee-table tribute, Evans and Kingsbury offer a balanced, moving and chronological pictorial of each of the 31 acts from the three and a half days, beginning with Richie Havens and ending with Jimi Hendrix. In addition to a foreword by Martin Scorsese are numerous, firsthand accounts from concert-goers, crew members, farm hands and musicians like David Crosby: It looked like an encampment of a Macedonian army on a Greek hill, crossed with the biggest batch of gypsies you've ever seen. The book provides political and social context that led up to the three days of peace music. Flower child or not, readers will come away with a tangible Woodstock experience (though perhaps without the smell). Color photos.
