Fill in Puzzles Get cracking on these fun word fill-in puzzles and you will be training your brain while you relax. Unlike a regular crossword, word fill-ins give you all the answers to start with. But that doesn't mean they're easy! It is up to you to fit all of the words into the grid, and there is only one way to do it. Solving these puzzles requires you to use your deductive powers, gradually eliminating combinations that don't work until you find the one that does. The words in the 60 puzzles in this book range in length from 3 to 15 letters. Abbreviations, phrases, and proper nouns are also used for words. You will be exposed to a lot of words while doing these puzzles, and we hope you will use a dictionary to look up the ones you don't know. Each word fill-in puzzle grid is 15x15 characters in size and you are given about 70 words with each puzzle to fit into the grid. We estimate that the average puzzler might take about 30 minutes to do one of the puzzles, but you might find yourself slower or faster. The solutions for all 60 puzzles are given in the back of the book. The font size of the puzzles is 12 point and easily read by people with normal (corrected) vision. We hope you enjoy these word fill in puzzles and learn a lot of new words along the way. Remember, bending your brain a little keeps it young, flexible and alive.
