Overall a great game but what's with all the French word questions?By Alana SchockI bought this for my great grandmother in law (a former grade school grammar teacher and Wordie Supreme) as a Christmas gift. I played it with her a couple of times over Christmas. The game was challenging and fun, yet there were an inordinate number of questions related to french words and phrases. I would expect that some questions would be related to the foreign language origins of English words and phrases, but almost all of those types of questions had to do with French words and phrases rather than a number of different languages. This is the only reason why I wouldn't give the game 5 stars. Other than this, it was a fun game - well worth the very reasonable price.1 of 1 people found the following review helpful. Tiny PrintBy PippiThe biggest problem with this game is it was designed for elves, apparently. The letter cards are finger tip size. Why not just make them regular card size? I could live with that but the questions and answers are printed so small we use a magnifying glass to read them. Kind of ridiculous. Poor design.2 of 2 people found the following review helpful. Lots of Fun for our Word-Loving FamilyBy N PivecEnjoyed this game on Christmas day. I liked that sometimes you solved a puzzle alone and other times you worked with a partner. A roll of the dice determines whether or not and who your partner will be. You'll feel like a smart cookie after playing this game! :)

For all those who love the New York Times crosswords and beat their families at Scrabble, this is a word game to stump even the brainiest of word nerds. Five different categories challenge players to flex every rhetorical muscle, build words, brainstorm synonyms, and test their proofreading skills. For every answer a player gets right, he or she receives a word lover's favorite reward: a letter of the alphabet. Be the first player to come up with a five-letter word (or longer) from your collection, and you'll be champion of the word nerds!

About the AuthorBased in Seattle, Forrest-Pruzan Creative is the invention studio behind dozens of award-winning games, including Cranium Hullabaloo, Cranium Cadoo, and the Cat in the Hat I Can Do That!
