World Radio TV Handbook continues to be the ultimate guide for the serious radio listener! This is the most comprehensive source available on medium wave, shortwave, FM broadcast, and television broadcast information. All the world's national and international radio services are conveniently bookmarked, and dozens of color pages provide articles, radio reviews, propagation predictions, and maps. This 58th edition for the year 2004 features new articles on "How to Build a Receiving Station", "Digital Update", and much more!
