Editors of Nikoli Publishing : X-Treme Sudoku before purchasing it in order to gage whether or not it would be worth my time, and all praised X-Treme Sudoku:

0 of 0 people found the following review helpful. Excellent! Not only are the puzzles appropriately difficult but ...By JEEcellent! Not only are the puzzles appropriately difficult but even better the format and quality of this book make it a stand out. The size of the page is just right and each square of the puzzle is large enough to make notations. Also the smooth, quality paper makes this superior to most sudoku books. I hunted to find this book after finishing an

earlier version and it was worth the search.0 of 0 people found the following review helpful. I'll probably buy it again...By DMAJust pure fun. Not like the computer generated Sudoku at all. You never find yourself saying "is this a mistake?"0 of 0 people found the following review helpful. A diabolical labyrinth.By Diane RapaportThe author of these is diabolical. After doing half of these, it's like being led into a labyrinth every time. Sometimes I solve them; sometimes it's almost to the end where I've discovere a horrid mistake. Sometimes the puzzles are three numbers to be inserted a vareity of places and It takes awihle to figure it out. He's quite the master and way more fun solving than computer generated ones.

The next step, like having a whole book of just Saturday Times crossword puzzles. Even more fiendish, even more fun, X-treme Sudoku proudly presents 320 puzzles rated "Difficult" to "Very Difficult." These are the toughest, knottiest, most demanding Sudoku out thereprepare to have your brain cells crackle, your pencils melt, your mind obsessed with numbers and squares. No one is better than Nikoli at rounding up such a collection. A Japanese puzzle and game company that started the Sudoku craze over twenty years ago, Nikoli is known for creating the only handcrafted puzzles around. As Tim Preston, publishing director of Puzzler Media, Britain's biggest seller of crossword and cryptogram puzzles, has said: "It is a matter of great pride to get your puzzle into one of Nikoli's magazines. Handmade puzzles are much better. . . . It gives you the satisfaction that you are pitting your wits against an individual who has thought about what your next step would be and has tried to obscure the path." For X-treme Sudoku, the puzzle-makers at Nikoli went out of their way to obscure the path. There are puzzles with entire boxes empty. Puzzles with whole rows left blank. Puzzles that form mysteriously beautiful symmetries, but demand a calculating logic to solve. For the X-treme solver, paradise.

About the AuthorPuzzability, based in New York, includes Mike Shenk, who has written puzzles for Games magazine and its offshoots, and provided daily crosswords for a major newspaper syndicate. He is currently the crossword editor of The Wall Street Journal; Amy Goldstein, a trivia buff and wordsmith who has served as associate editor and managing editor for Games magazine and its sister publications; and Robert Leighton, an illustrator, writer, New Yorker cartoonist, and creator of unique visual puzzles.
