Vivid record of the Yiddish-speaking immigrants to the U.S. By fitandfashion This recording presents a fascinating story of how recordings of Yiddish radio broadcasts were discovered and saved. It includes material of great historic interest that is also enjoyable and heartwarming, including music, drama, current events, advice programs, and advertisements. It vividly reflects the culture and experience of Yiddish-speaking immigrants to the U.S. in the first half of the 20th century. Recording includes original soundtracks as well as English voice-over so that it can be understood by those who do not understand Yiddish. This is a gem, highly recommended. 0 of 0 people found the following review helpful. Classic Radio By Customer Interesting, wanted to hear more act and less commentary 0 of 0 people found the following review helpful. Yiddish Radio Project By Jay If you are old enough to remember Yiddish radio or grew up with Yiddishkeit, you will love this. It is a real piece of nostalgia from a cultural time that is pretty much gone. Henry Sapoznik has put together a wonderful look at Yiddish radio spanning the period from the 1930s through the 1950s. The Yiddish Radio Project is based on a series of stories featured on NPR's All Things Considered in the spring of 2002. The series highlights the golden age of Yiddish-American broadcasting in the 1930s to '50s. In its heyday Yiddish radio was heard from coast to coast, with a dozen stations in New York alone. All that survives from that incredible era are 500 hours of material preserved on 1,000 fragile discs--all of them rescued from storerooms and attics and even dumpsters, by one man, Henry Sapoznik, a musician and historian who has been on a fifteen-year mission to save every remnant from the "golden age" of Yiddish radio. This collection is an unprecedented intimate snapshot of American Jewish life during the '30s and '40s. The series features translations of the Yiddish language broadcasts by a cast that includes Eli Wallach, Carl Reiner, and Isaiah Sheffer.
