**Fletcher Black : Yu-Gi-Oh! The Falsebound Kingdom (Prima's Official Strategy Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Yu-Gi-Oh! The Falsebound Kingdom (Prima's Official Strategy Guide):

0 of 0 people found the following review helpful. Not worth the \$4 you lay for it. By alexander gastonguay Guide is awful. It only tells you what most people would already know to do. No specifics when it comes to monster encounters or shop lists for the merchants in each village. Sections are poorly titled and not well separated at all, leading one mission to end halfway down a page and the next to begin. Very sloppy. Bad job by the author/editor. 0 of 0 people found the following review helpful. It's Roland, not Isono. By Mitch Germain A great guide to one of the most underrated games in history. 0 of 0 people found the following review helpful. It works. By time man I bought the game years ago and I really enjoyed playing the game so I thought to go online and try to find some map layouts for the

game and saw that they had made a guide for the game.
