**Djape : Zero Killer Sudoku: 101 puzzles: Maximum Challenge (Volume 2)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Zero Killer Sudoku: 101 puzzles: Maximum Challenge (Volume 2):

1 of 1 people found the following review helpful. Djape is the best bet for Sudoku puzzles, any levelBy Mr. Mrs. DDjape has an unequaled knack for developing interesting, challenging puzzles. They can all be solved by logic. I await Volume 3.

This is volume 2 of the Zero Killer Sudoku book series! ZERO Killer puzzles are played on a standard 9x9 Sudoku grid, but they give you the least amount of starting clues. Unlike ordinary Killer Sudokus, only some cells are grouped in cages, with cage totals shown as usual. Some of the cells are left completely blank. This makes the puzzles more challenging than your usual Killer Sudoku. There are 101 of these gems in this book, split into 4 levels of difficulty. The difficulty is only relative to other puzzles in this book. All puzzles are quite hard and are intended only for the experienced Killer Sudoku aficionado. One puzzle per page is printed, so there is plenty of space to scribble down your notes. The final 5 puzzles are a novelty and a surprise! Enjoy!
